

LIQUIDBRICK ECO – 3- D ART CROSSWALKS

Design details: (3-Dimensional Artistic motifs) Design- Open Books / Colors- black & white

Product: LIQUIDBRICK ECO W/ Duracolor colored aggregate

Location: City of Tampa – Downtown Art District

Specification: Artistic rendering of 3- dimensional motifs to imitate open books. Intersection designed to provide an engaging visual impact through the use of motifs that seem to be in motion with the pages turning in the wind. LiquidBrick ECO was the chosen product due the requirement that the product used be of 100 % integral color thru aggregate, this was achieved with “DuraColor colored aggregate “comprised of a synthetic blend of colored & recycled glass. In addition due to the synthetic composition of the aggregate it is impervious to all surface contaminants such as, oil spots, fuel leaks. Because the color of the aggregate is integral and not just a color coat it will remain for the life of the surface with almost no loss of color impact.

Project requirements:

- 3- year limited warranty

LIQUIDBRICK ECO – 3- D ART CROSSWALKS

- Integral colored aggregate – lifetime color retention, a must for artistic projects
- Non-slip surface
- ADA compliant
- Exact (pantone) color matching
- Maintain colorfastness for the design life of the surface
- Meet and exceed the stringent quality requirements of the Artist.
