

## STREETBRICK – Solar Reflective Asphalt Coating

---

**Product:** STREETBRICK

**Location:** ICON BRICKELL- Downtown Miami

**Specification:** Apply a custom color, low maintenance; non-slip asphalt coating that is impervious to all fluid leaks from vehicular traffic. Extreme care was required due to the surrounding statues and finishes which were valued in the \$millions of dollars as well as the extremely high quality standards of the project. Over 75,000 sq ft installed on schedule in 3- days with no punch list.

**Project requirements:**

- 5- year limited warranty
- Meet solar reflective (SRI) requirements in order to maintain comfortable surface environment
- Non-slip surface
- ADA compliant
- Integral colored coating / Exact ( pantone) color matching
- Maintain colorfastness for the design life of the surface( 7- 10 years)
- Meet and exceed the stringent quality requirements of the design firm.
